Education

GRADUATED MAY 2025

Bachelor of Science in Information Systems *Adamson University*

I began my college journey in 2012 but had to put my studies on hold in 2016 to focus on work. Determined to complete my education, I returned in 2021 while balancing my responsibilities as a working student and successfully earned my degree in Information Systems in 2025.

Experience

ERP Consultant (m/w/d)

HashMicro Philippines

November 2025 - Present

An ERP Consultant at HashMicro gathers client requirements, translates them into ERP system configurations, and coordinates with developers to ensure successful implementation. They also handle user training, testing, documentation, and go-live support while managing client communication throughout the project lifecycle.

Full Stack Developer (m/w/d)

Emed Healthcare Solutions

April 2025 - October 2025

As a Full Stack Developer, I maintain and enhance both legacy and newer versions of the Medix Hospital Management System, implementing features, fixing bugs, and ensuring seamless front-end and back-end integration. My expertise includes ASP.NET, C#, Angular, Microsoft SQL, and front-end technologies like HTML, CSS, JavaScript, and TypeScript.

Sportsbook Risk & Settlement Analyst

Wanfang Tech

Sept. 2019 - Feb. 2022

As a Sports Betting Analyst at Wanfang Tech, I managed in-play operations, live score updates, and bet settlements to ensure accurate and timely processing. I also analyzed and adjusted odds based on real-time game developments, market trends, and risk assessments to maintain competitive and balanced betting lines

Technical Support Representative

IBEX Global

April 2017 - August 2019

Delivered customer support for AT&T services including internet, phone, TV, and DIRECTV. Resolved billing and technical issues while upselling products to enhance customer experience and satisfaction.

Front End Developer Intern

Blast Asia

486 Hours

As a Front-End Developer Intern, I worked with the UI/UX team and Project Manager to understand project requirements. I developed web pages based on design specifications, implemented front-end features, and assisted in testing and fixing issues to ensure a smooth user experience.

Additional Experiences

Waiter/Server

2014 - 2016

Family Owned Business

Served food and drinks in a family-run bar and restaurant, assisting customers throughout their dining experience. Took orders, delivered meals, and helped with basic cashier duties during busy hours.
